The following is an examiner's statement of reasons for allowance: the prior art fails to show a regulator as claimed with the specific locations of the two springs. Faust is the closest prior art, but teaches away from using biasing springs (col. 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
